MILESTONE

1. Dashboard (with User Registration, Login, and Database Design):

- Set up the admin dashboard with a clean and user-friendly interface.
- Implement admin authentication and authorization.
- Include user registration and login functionality.
- Design and set up the necessary database tables.
- Price: 15,000 rupees

2. Earning:

- Create a CRUD system to manage earnings.
- Include options for filtering and sorting earnings data.
- Develop APIs for earning-related actions, such as adding and updating earnings.
- Price: 10,000 rupees

3. Membership (with User Registration and Login):

- Set up a system to manage different types of memberships.
- Allow users to subscribe, upgrade, or cancel their memberships.
- Include features to specify membership benefits, pricing, and duration.
- Develop APIs for managing user memberships.
- Implement user registration and login functionality.
- Price: 10,000 rupees

4. Deposit (with User Registration and Login):

- Create a CRUD system for managing user deposits.
- Include payment gateway integration for deposits.
- Develop APIs for deposit-related actions.
- Implement user registration and login functionality.
- Price: 10,000 rupees

5. Invite Link:

- Implement a system for generating and sharing invite links.
- Track user referrals through these links.

- Create APIs for generating and managing invite links.
- Price: 10,000 rupees

6. My Referral:

- Develop a section where users can view their referral data.
- Display information on referred users and earnings.
- Create APIs for retrieving referral data.
- Price: 8,000 rupees

7. Withdraw:

- Create a module for users to request withdrawals.
- Implement withdrawal processing and approval mechanisms.
- Develop APIs for withdrawal requests and processing.
- Price: 12,000 rupees

8. Task Request:

- Create a system for users to submit task requests.
- Include features for assigning and tracking task status.
- Develop APIs for managing task requests.
- Price: 10,000 rupees

9. Contact Us:

- Set up a contact form or messaging system for user inquiries.
- Implement email notifications for new inquiries.
- Create APIs for handling contact form submissions.
- Price: 7,000 rupees

10. LetterHead:

- Develop a module for creating and managing letterheads.
- Allow users to customize and use letterheads for various purposes.
- Create APIs for letterhead management.
- Price: 8,000 rupees

11. Extra Milestone:

- Reserve an additional budget for unexpected development needs or feature enhancements.
- Price: 10,000 rupees
